The image shows a close-up of a silver metal surface, likely a vehicle's chassis or engine compartment. A black plastic electrical connector is plugged into a multi-colored wire harness. The wire harness is bundled with black tape. Below the connector, the part number "WDB2110921B240581" is stamped into the metal. The surface shows signs of wear, including dirt and small holes. In the background, there are other components, including a black plastic part and a metal plate.
